ECO BERRY

FE

EST. 2017

The company was established in 2017. Our company specializes in growing such berries as organic garden strawberry, raspberry remontants, summer raspberry, black currant, red currant, blackberry, honeysuckle, blueberry. The farm is also engaged in harvesting forest products from the pure Carpathian Mountains: Forest bilberries, blackberries, cranberries, lingonberries, elderberries, wild mushrooms. Our farm is certified, so we have the opportunity to grow organic berries following the requirements of the Organic Standard certificate and produce products by the requirements of the FSSC 22000 certificate. All our products go through such processes as optical sorting, metal detector, freezing of two types (static freezing, IQF in the OctoFrost tunnel). Packaging of finished products is possible at the request of the client or offered by our specialists. For example cardboard bags of 25 kg or cardboard box of 10 kg; 10 kg in a cardboard box 2.5 kg per package. The company already exports to the EU countries, Poland, Italy, Bulgaria, Spain, Germany, Romania, Belarus.

DVIPA / AHIMSA

LLC

EST. 2005

In 2005 we have gathered a group of people, who like to live in a different way of life – with no harm, envy, greed, etc. We want to change our life for the better and create a community of people, which can show that we can be happier working together with nature and cows. And we did it! We got the best 150 hectares of land and soil in Ukraine – a nature reserve in one of the purest places – Chernechchyna village, Dnipro region, on the bank of the purest river of Europe – Orel. Since that time we start to develop our ideas into reality and creating a small village: work hard, develop land and grow up!

Now we have:

- 40 hectares of berry fields (Strawberry and Raspberry);
- 100 hectares of Amaranth, Spelt, Wheat, Rye and Corn;
- 5 qualified specialists, who are practicing the Ahimsa lifestyle and bring love and care to our plants;
- more than 40 people, who live together, work on fields with love and care, and who are fully happy on that;
- 9 cows and bulls which are bringing us a minimum of 60 liters of milk every day;
- our TMAhimsa;
- thousand and thousand of grateful customers, who love our products.

The YAROFRUIT company is a leader in harvesting, processing and supplying high-quality frozen fruit and berries for all kinds of industries. All wild berries are collected in clean regions of Ukraine. It allows to control and receive eco-friendly and safe raw materials – wild berries from the stage of preparation and collected harvested berries in the forest.

The company works since 2016. Our activities focus on leadership in the segment of frozen fruit and berries, emphasizing the quality of incoming raw materials and processing technologies on modern European equipment. Harvesting of raw materials is carried out in Ukraine in a clean Volyn, Lviv and Carpathian regions. So that all our berries and mushrooms have low radiological characteristics and high mass fraction, confirmed by a certificate of conformity.

Our production facilities are located in the Carpathian and Lviv regions. Today, there are 3 freezing places and 5 warehouses where 2100 tons of frozen food can be stored at the same time. Our production capacity allows us to produce more than 120 tons of frozen wild blueberry on a daily basis.

ORIL-ECO

LLC

EST. 2018

Driven by love for our native land, we create a high-quality, healthy and environmentally friendly product for our partners, who will bring it to those who value youth, health and beauty.

Our farm occupies 25 hectares of raspberries. These are remontant varieties: Brusvyana, Joan Jay, Brilliance, Himbo Top and Amira. Certification for organic standards began in 2016. Today we have completely organic fields and organic crops.

It is confirmed annually by certification from Organic Standard. We strictly adhere to organic production technologies, which are developed for us by one of the best organic agronomists in Ukraine. Soon, we are going to launch a refrigeration complex that will be certified according to HACCP and organic standards.

Therefore, now our product is frozen berries. In 2018, we planted garden strawberries on an experimental plot of 2 hectares. The selected varieties are Syria and Khonei. We already have a first impression and are planning to increase the area under strawberries to 10 hectares. By 2020, we plan to install equipment for washing strawberries for subsequent freezing.

ZEMLIA ORGANIC

LLC

EST. 2014

Our Organic Farm was established in 2016 to become a center for honest, genuine and healthy food for people and land. Land Organic (Zemlia - in Ukrainian) operates at the 200ha of its own certified organic soil. All the food grown on the farm is organic and certified according to the organic standards of the European Union.

In 2019 Land (Zemlia) Organic launched a modern food shock freezing and packing factory for the berries and mushrooms. Our freezers can maintain up to 300 tonnes. We have started developing and improving our organic methods on a smaller scale of raspberries such as Joan Jay and Himbo Top. For the years 2017-2019 our crops of 102 tonnes were sold for export to the EU. In 2019 we have planted 3 ha of strawberry Honey and 1 ha of rhubarb Victoria and collected the first crop in 2020 of 26 tonnes of strawberry and 2 tonnes of rhubarb.

We are consistently expanding our organic lands and today we reached more than 200 ha. Also, our farm and freezing facilities are located in 75 km from the border with Poland, which facilitates logistics and export. We are open for cooperation!

DARLISAD

LLC

EST. 2007

We are a family-owned company that was founded in 2005. We are located in the forest area of western Ukraine. For over 15 years we have purchased, processed, frozen and sold high-quality fruits supplied by our farmers from the ecologically cleanest regions of Ukraine.

Our mission is to make customers remember Darlissad when they think about berries. We seek to deliver high-quality products and to be a preferred supplier.

Our company follows the highest quality standards in this demanding market. In order to guarantee the highest quality, we have implemented food safety management systems in our plants complying with HACCP principles and European standards FSSC 22000 and ISO 9001, including organic production requirements as well.

Taste the difference! We are open to new projects!

AMETHYST OLE

LLC

EST. 2011

The Company was created in 2011 by Vasyl Chamor. In 2013 the Company was certified organic for the first time and has confirmed its organic status yearly ever since. In 2018 we passed HACCP, ISO 9001:2015 and ISO 22000:2005 audits. Amethyst Ole has been acknowledged by Naturland since 2013. At this point, two powerful production lines for electronic berry sorting are in use at our facility. With cutting-edge equipment and professional teamwork, the company manufactures up to 30 tons of IQF produce a day.

As of today, we have 3 freezing chambers with a total capacity of 40 tons and 2 storage chambers where up to 700 tons of products can be stored at the same time. Our production capacity allows us to manufacture up to 30 tons of frozen produce daily.

Food safety and product quality are the two most important factors in growing, collecting and processing our fresh berries, mushrooms and nuts. From the field and forest to harvesting and through production, Amethyst Ole strives to assure food safety standards and effective tracking of both its organic and conventional products.

ONLY ORGANIC

JSC VINNYTSIA FOOD & GUSTATORY FACTORY

EST. 1999

Vinnytsia Food & Gustatory Factory, Private JSC, is one of the leading companies in the Vinnytsia region in the manufacturing of horseradish, mustard, dry snacks and beverages under BXC, O2 Only Organic, Delicco trademarks.

We constantly improve technological processes, introduce new technologies and upgrade existing equipment.

In the manufacturing process, we mostly use high-quality natural ingredients. These priorities together with a professional approach, many years of experience, control over all stages of the production process guarantee the high quality of our goods. We also have huge experience in private label manufacturing.

At the company, we have implemented and continue to operate the system of quality management under ISO 9001 standard and a system of food goods safety management under ISO 22000 standard.

Manufactured goods quality is under control of own laboratory. In 2014 our company has successfully passed the international audit and has received a certificate under the FSSC:22000 scheme (certification scheme for food safety systems in manufacturing of horseradish and mustard).

LIQBERRY

LLC

EST. 2011

Liqberry was founded in 2011 as a family business to produce unique berry pastes by own patented HTD-technology.

The essence of the Liqberry technology is nano-decomposition and simultaneous hydrolysis of wild berries through friction and pressure pulsation. During the process, the cells of the berries are broken down, thus making rich antioxidants from seed oil, which otherwise could not be digested, available for the human body.

The company was founded in 2011, and since then has significantly grown. Our product list today includes more than 20 different kinds of berry pastes of the highest quality sold all around the world, helping our customers to live healthier and better lives.

Our motto is 'Towards a good life together!'

DVIPA / AHIMSA

LLC

EST. 2005

In 2005 we have gathered a group of people, who like to live in a different way of life – with no harm, envy, greed, etc. We want to change our life for the better and create a community of people, which can show that we can be happier working together with nature and cows. And we did it! We got the best 150 hectares of land and soil in Ukraine – a nature reserve in one of the purest places – Chernechchyna village, Dnipro region, on the bank of the purest river of Europe – Orel. Since that time we start to develop our ideas into reality and creating a small village: work hard, develop land and grow up!

Now we have:

- 40 hectares of berry fields (Strawberry and Raspberry);
- 100 hectares of Amaranth, Spelt, Wheat, Rye and Corn;
- 5 qualified specialists, who are practicing the Ahimsa lifestyle and bring love and care to our plants;
- more than 40 people, who live together, work on fields with love and care, and who are fully happy on that;
- 9 cows and bulls which are bringing us a minimum of 60 liters of milk every day;
- our TMAhimsa;
- thousand and thousand of grateful customers, who love our products.

SKVYRSKYI GRAIN PROCESSING FACTORY

LTD

EST. 1986-1991

"Skvyrskyi grain processing factory" Ltd. was established in 1986-1991 based on the grain reception center operating since 1931.

Having passed a long path from a grain storage facility to a large-scale factory, today it is a modern, powerful and versatile enterprise, one of the leaders of the cereal industry in Ukraine and one of the biggest plants in Eastern Europe.

The factory produces different types and grades of groats, flakes and flours from buckwheat, oats, corn, wheat/spelt, rye, barley and millet. The products are represented in conventional, gluten-free, Organic and baby-foods quality. Packing options include bulk, retail (TM Skvyriaka and TM Skvira) and private-label packaging. "Skvyrskyi grain processing factory" Ltd is a regular supplier for such worldwide brands as "Danone", "Nestle", "Cerealto", "Hero", "Kellog's".

Nowadays, the factory processes more than 5000 tons of grain per month and more than 50% of the production volume is exported to the EU, Middle East, Asia, Africa, CIS, North and South America markets (80+ countries around the world).

The factory is certified according to FSSC 22000, Halal, Organic Standard UA-BIO-108, COR (Canada Organic Regime), Bio Suisse, Sedex.

AGROINDUSTRIAL GROUP "ARNIKA"

Group of companies, including LLC, FE

EST. 2000

Arnika was established in the Poltava region, Ukraine in 2000 and started its operations with conventional farming. Currently, the company is running about 15000 hectares of organic certified land and is the biggest organic company in Ukraine and the second largest in Europe by the size of the certified land bank.

Arnika produces and exports organically certified grains and beans (wheat, chickpeas, corn, high oleic sunflower and soybeans), other crops (industrial hemp, flax, millet) and processed organic goods (sunflower oil (ho) and sunflower cake). Our commodities are certified by EU, BioSuisse (Switzerland), NOP (USA), COR (Canada) and JAS (Japan) organic standards.

The high quality of our goods is maintained within the whole production cycle: from sowing - to harvesting - and till shipment. This is supported with powerful GPS tracking systems, scientifically-based breeding and own warehouse capacities. The well-developed logistic infrastructure allows making different terms of delivery and ways of shipment (by rail wagons, sea containers, vessels, trucks, etc.).

We also have two international trade offices in the US and Switzerland – Arnika Organic North America Inc. and Arnika Organic Europe AG.

AGROFIRMA POLE

LLC

EST. 1999

Agrofirma Pole has a long and rich tradition of supplying high-quality cereals to the European market. Today Agrofirma Pole is the leading producer and supplier of Organic and Conventional hulled millet from Ukraine since 1999.

We supply more than 12 000 tons/yr of organic and 8 000 tons/yr of conventional products from Ukraine. We produce over 10000 tons of Hulled Millet per year which are supplied to 23 countries in Europe, Asia and North America.

The company's star product is Hulled Millet. Agrofirma Pole has its own organic certified granary silo with the total capacity of 4 400 tons for storage of organic raw-material and warehouse of 2 000 sq.m. for ready-made products including temperature-controlled storage.

Following the development in the organic market, we are working to increase the range of Organic and Gluten-Free crops. Agrofirma Pole offers organic pulses and oilseeds as well.

20 years of experience in raw material procurement, qualified personnel and proven production technologies make it possible to achieve consistently high-quality products. Processing facilities are FSSC 22000 certified. Technological lines are equipped with: destoners, Bühler Sortex, Sartorius Vistus metal detector, automatic dispenser. The quality of our products is controlled by the internal laboratory of Agrofirma Pole and tested by external independent laboratories in Germany, the Netherlands and Ukraine.

Our team, following the principles of the whole European community, works to integrate Ukraine into a united European space with common human values.

FIRMA DIAMANT LTD

LLC

EST. 1994

In our opinion, complex carbohydrates and fiber are the basis of the proper functioning of the human microbiome, which is the key to strong immunity.

Our motto: "Kozub product - a component of a healthy life!"

Our mission: "To exceed the expectations of our customers, to give the opportunity to eat healthy food to everyone, to contribute to the health of the nation!"

The main thing in the quality of food, in addition to the fact that they must be produced with the soul, is, of course, compliance with the food safety management system. Therefore, for your confidence in safety and suitability for consumption of the entire range of products manufactured by DIAMANT LTD, the company's food safety policy defines the program of food safety management system as a critical element necessary for all structural units of the enterprise.

To meet the requirements of current Ukrainian legislation in the field of food safety, to effectively inform stakeholders within the food chain and demonstrate compliance with the organization's food safety policy, the company has developed, successfully implemented and continuously applied procedures based on the principles of food safety management system (HACCP).

EST. 2000

Arnika was established in the Poltava region, Ukraine in 2000 and started its operations with conventional farming. Currently, the company is running about 15000 hectares of organic certified land and is the biggest organic company in Ukraine and the second largest in Europe by the size of the certified land bank. Arnika produces and exports organically certified grains and beans (wheat, chickpeas, corn, high oleic sunflower and soybeans), other crops (industrial hemp, flax, millet) and processed organic goods (sunflower oil (ho) and sunflower cake). Our commodities are certified by EU, BioSuisse (Switzerland), NOP (USA), COR (Canada) and JAS (Japan) organic standards. The high quality of our goods is maintained within the whole production cycle: from sowing - to harvesting - and till shipment. This is supported with powerful GPS tracking systems, scientifically-based breeding and own warehouse capacities. The well-developed logistic infrastructure allows making different terms of delivery and ways of shipment (by rail wagons, sea containers, vessels, trucks, etc.). We also have two international trade offices in the US and Switzerland – Arnika Organic North America Inc. and Arnika Organic Europe AG.

UKROLIYA

LLC

EST. 2001

UKROLIYA is a leader of Ukrainian high-oleic organic and linoleic organic sunflower oils and organic sunflower cake market.

The key reason for the successful development of our company is the formation of agro-industrial clusters based on industrial enterprise. At UKROLIYA we form local associations with farmers - suppliers of organic raw materials, processors and consumers of secondary processed products for the primary purpose of mutually beneficial cooperation.

UKROLIYA combines best in the world Ukrainian sunflowers with century old traditions. We produce high quality organic sunflower oil from premium seeds grown by organic farming methods, and we do so in compliance with the highest European quality control standards and by using efficient models in logistics and distribution.

Our plant, UKROLIYA ORGANIC, is the first in Ukraine oil pressing plant which is specializing in the processing of exclusively organic raw materials.

UKROLIYA is certified according to the standard of organic products of the European Union and corresponds to the Swiss standard BIOSUISSE, to the US standard NOP and the Canadian standard COR.

We produce high quality organic sunflower oils:

· HIGH OLEIC ORGANIC SUNFLOWER OIL crude and refined

· LINOLEIC ORGANIC SUNFLOWER OIL crude and refined

We offer the best solutions for different business segments:

B2B: for industrial needs (organic oils in bulk)

B2C: own brand Garna Organica, PL's projects (packaging organic oils)

ECO BERRY

FE

EST. 2017

The company was established in 2017. Our company specializes in growing such berries as organic garden strawberry, raspberry remontants, summer raspberry, black currant, red currant, blackberry, honeysuckle, blueberry. The farm is also engaged in harvesting forest products from the pure Carpathian Mountains: Forest bilberries, blackberries, cranberries, lingonberries, elderberries, wild mushrooms. Our farm is certified, so we have the opportunity to grow organic berries following the requirements of the Organic Standard certificate and produce products by the requirements of the FSSC 22000 certificate. All our products go through such processes as optical sorting, metal detector, freezing of two types (static freezing, IQF in the OctoFrost tunnel). Packaging of finished products is possible at the request of the client or offered by our specialists. For example cardboard bags of 25 kg or cardboard box of 10 kg; 10 kg in a cardboard box 2.5 kg per package. The company already exports to the EU countries, Poland, Italy, Bulgaria, Spain, Germany, Romania, Belarus.

We are a family-owned company that was founded in 2005 with location in the forest area of western Ukraine. For over 15 years we have purchased, processed, frozen and sold high quality fruits supplied by our farmers from the ecologically cleanest regions of Ukraine.

Our company's mission is that our customers remember Darlissad when they think about berries. We seek to deliver high-quality products and to be a preferred supplier.

Our company follow the highest quality standards on this demanding market. In order to guarantee the highest quality, we have implemented food safety management systems in our plants complying with HACCP principles and European standards FSSC 22000 and ISO 9001, including organic production requirements as well.

Taste the difference! We are open for new projects :)

ALTA KRAINA (CATANZARO EURASIA)

LLC

EST. 2009

The company supplies ingredients that are harvested in the heart of the Carpathian Mountains, located in the environmentally friendly Western region of Ukraine.

Our berries have unique healing properties, a high level of antioxidants and they are rich in useful minerals.

Berries and fruits are widely famous in Europe for baby food, pharmacy and organic production by their pure and excellent quality.

Keynotes about our company:

- more than 15 years in the international food business;
- 8 years export from Ukraine with focus to Western European countries;
- our clients are big multinational companies;
- product portfolio, which is increasing by opening a new export division – freeze-dried berries;
- organic trade certification;
- official representative in Ukraine and other CIS countries of worldwide juice concentrate producers from Israel, Turkey, Chile;
- own production, started in 2018 at partnership facility;
- excellent business reputation.

AGROINDUSTRIAL GROUP "ARNIKA"

Group of companies, including LLC, FE

EST. 2000

Arnika was established in the Poltava region, Ukraine in 2000 and started its operations with conventional farming. Currently, the company is running about 15000 hectares of organic certified land and is the biggest organic company in Ukraine and the second largest in Europe by the size of the certified land bank. Arnika produces and exports organically certified grains and beans (wheat, chickpeas, corn, high oleic sunflower and soybeans), other crops (industrial hemp, flax, millet) and processed organic goods (sunflower oil (ho) and sunflower cake). Our commodities are certified by EU, BioSuisse (Switzerland), NOP (USA), COR (Canada) and JAS (Japan) organic standards.

The high quality of our goods is maintained within the whole production cycle: from sowing - to harvesting - and till shipment. This is supported with powerful GPS tracking systems, scientifically-based breeding and own warehouse capacities. The well-developed logistic infrastructure allows making different terms of delivery and ways of shipment (by rail wagons, sea containers, vessels, trucks, etc.).

We also have two international trade offices in the US and Switzerland – Arnika Organic North America Inc. and Arnika Organic Europe AG.

AGROFIRMA POLE

LLC

EST. 1999

Agrofirma Pole has a long and rich tradition of supplying high-quality cereals to the European market. Today Agrofirma Pole is the leading producer and supplier of Organic and Conventional hulled millet from Ukraine since 1999.

We supply more than 12 000 tons/yr of organic and 8 000 tons/yr of conventional products from Ukraine. We produce over 10000 tons of Hulled Millet per year which are supplied to 23 countries in Europe, Asia and North America.

The company's star product is Hulled Millet. Agrofirma Pole has its own organic certified granary silo with the total capacity of 4 400 tons for storage of organic raw-material and warehouse of 2 000 sq.m. for ready-made products including temperature-controlled storage. Following the development in the organic market, we are working to increase the range of Organic and Gluten-Free crops. Agrofirma Pole offers organic pulses and oilseeds as well.

20 years of experience in raw material procurement, qualified personnel and proven production technologies make it possible to achieve consistently high-quality products. Processing facilities are FSSC 22000 certified. Technological lines are equipped with: destoners, Bühler Sortex, Sartorius Vistus metal detector, automatic dispenser. The quality of our products is controlled by the internal laboratory of Agrofirma Pole and tested by external independent laboratories in Germany, the Netherlands and Ukraine.

Our team, following the principles of the whole European community, works to integrate Ukraine into a united European space with common human values.

60 – HERBS

LTD

EST. 2018

We are the 3rd biggest exporter of dry herbs in Ukraine by volume. Est. in 2018 we are the fastest increasing company in Ukraine.

Our suppliers are located all over Ukraine. Planned Capacity in 2021 is 1500 tones.

Our production and warehouses are located in Ivano-Frankivsk. We are equipped with dryers, cutting machines, calibrators, zig-zag, air cleaners, magnets, etc.

We organize transportation directly to your warehouse. We have a Polish company, so we offer you already customs cleared goods.

Our main projects:

- Rozkvit cultivation - this year over 100 farmers are cultivating medical herbs in the area of over 200 ha (malvae, calendula, cornflower, coneflower, valerian root, nettle, etc). 15% of these products are organic.

- Rozkvit wild-collection - we increase the network of collection centers in western Ukraine for the collection of conventional and organic plants. Our goal is 1000 tons in 2022 (20% organic). Main products: elderflower and elderberry, rosehips, rowanberry, nettle, birch leaves, frangula bark, field horsetail, wild raspberry leaves, and others.

We speak: English, Polish, French, Czech, Spanish, Ukrainian, and Russian. We are looking forward to having a long-lasting partnership with your esteemed company.

PARTNERS

STATE INSTITUTION

Entrepreneurship and Export Promotion Office is a state institution whose activities aimed at contributing to the development and support of small and medium enterprises, and supporting and promoting export of goods, works and services of Ukrainian producers.

The structure of the Office focuses on: partnership development, business opportunities, investment, innovation development, regional infrastructure development, digital transformation, business education and support of SMEs, analytics and growth and development strategies, business interaction with the state, and international cooperation.

In terms of export, the Office provides assistance for Ukrainian entrepreneurs in the following areas:

- Export consulting - practical advice on foreign market access and development of export potential.
- Export education - opportunities to improve knowledge and skills in order to prepare your business for export.
- Market Intelligence - analytical materials to explore potential markets for exports: trade reviews of countries, sectoral analytics, guides and information on tariff and non-tariff restrictions.
- Business opportunities - measures to expand export opportunities and search for new foreign partners: trade missions, exhibitions, and business forums.
- B2G platform - creation of opportunities for the constructive dialogue between businesses, governments and experts.

Find your business partner in Ukraine: sourcing services

For foreign importers interested in finding Ukrainian business partners and suppliers, the State Institution «Entrepreneurship and Export Promotion Office» provides sourcing services at no charge to assist the foreign importers in finding Ukrainian business partners. EPO's experts have access to various databases as well as associations which makes it possible to spot the right contacts for any foreign importer regardless of the industry of origin of the request. We will contact Ukrainian companies to verify their interest in cooperation and make sure that their offering meets sourcing requests.

Continuously growing catalogue of Ukrainian suppliers: <https://epo.org.ua/en/ukrainian-suppliers/> (search by the product code or by the product industry). Also, the company can leave personal request by <https://epo.org.ua/en/sourcing-information/>

SWISS-UKRAINIAN PROGRAM “HIGHER VALUE ADDED TRADE FROM THE ORGANIC AND DAIRY SECTOR IN UKRAINE”

Program title	Higher Value Added Trade from the Organic and the Dairy Sector in Ukraine (Short name: Quality FOOD Trade Program (QFTP))
Donor	Swiss State Secretariat for Economic Affairs (SECO)
Executing agency	Research Institute of Organic Agriculture (FiBL, Switzerland) in partnership with SAFOSO AG (Switzerland)
Beneficiaries	Ministry of Economy of Ukraine, State Service of Ukraine on Food Safety and Consumer Protection
Target groups	Private SMEs (producers, processors, service providers) but also relevant public entities in organic and dairy sectors
Program duration	23.08.2019 – 30.06.2023

The overall goal of the Program is to increase value added trade from the organic and dairy sectors, both domestic and export markets, by pursuing two objectives:

► Objective I: to strengthen product quality and safety in the organic and dairy sectors.

The Program will use a programmatic approach for capacity development to improve the regulatory framework and business environment in the organic and dairy sectors, which in turn, will improve the quality and safety of products in general. Considerable attention will be paid to the integration of risk-based concepts in risk management procedures and inspection.

► Objective II: to increase trade capacity in the domestic and export markets with consumer products from the organic and dairy sectors.

Interventions mostly work on meso- and micro-level, supporting sector stakeholders, primarily through service providers, in order to develop domestic and export markets. Organic Multi-Stakeholder Initiative plays a pivotal role in building capacities and better organizing the sector and thus fostering organic market development and trade. In the dairy sector implementation of the National Raw Milk Control Program is a priority to ensure the quality and safety of milk in general as a prerequisite for entering new markets with higher added value. The Program supports the capacity development of the Public Union “Carpathian Taste”, and the promotion of authentic gourmet products from the Ukrainian Carpathians under the trademark “Taste of Ukrainian Carpathians” to strengthen the competitiveness of small and medium-sized producers by implementing a joint marketing strategy. This activity creates the opportunity for local producers to take advantage of the increasing demand for authentic, tasty products from the Ukrainian Carpathians.

LTD

Organic Standard was founded in 2007 to become the first local inspection and certification body for organic production. Up to now, it is the only Ukrainian accredited organic certification body approved by the European Union, Switzerland and Canada. Organic Standard provides its inspection and certification services to more than 500 organic operators within Ukraine. It represents more than 75% of all organic operators in the country. Moreover, it controls a meaningful and growing number of operators in Belarus and Kazakhstan. As most of our clients are focused on the international market, Organic Standard has become an important player in export certification services. Clients of the company annually export about 100 - 160 thousand tons of products (we control more than 2000 export consignments every year). At the same time, Organic Standard helps national producers to develop the local market. We provide different training sessions regarding the requirements of organic standards, both online and offline, to show the best practices in organic farming and exchange new knowledge in organic production and export. Our senior certification specialists are members of the expert group involved in the development and implementation of the national organic legislation.

SERGIY GALASHEVSKYY

General Manager

NGO

Organic Ukraine NGO unites only certified organic operators and has important partners for the organic business; it is established to create and develop the Ukrainian and international organic market.

Organic Ukraine has the strength, knowledge, competence and experience to protect the interests of organic producers, processors, distributors, traders, input producers, and contribute to increase in organic sales. Our main focus is business communication for successful development of each organic market operator and organic sector growth.

The purpose of the business association is to help business owners to overcome the difficulties and obstacles they cannot cope with themselves. In addition to the clear benefits for Organic Ukraine member companies, our Union has a multiplier effect and contributes to the improvement of commercial, governmental and economic institutions of Ukraine.

Unite Ukraine – is an independent non-commercial organization that supports Ukrainian business community in their endeavor to expand to foreign markets applying cost effective and efficient trade promotion tools. Our experts have vast experience in trade promotion and consulting at all stages of business internationalization. We cooperate with industrial business associations, government authorities and donor organizations.

Experts of Unite Ukraine offer customized approach to address any aspect of business internationalization for individual businesses, industrial associations, and development aid projects. Depending on each individual case we may offer comprehensive evidence-based go-to-market planning or separate activities like b2b matchmaking, market analysis or business opportunity check. We are proud of our professional network of contacts all over the world. It enables us to conduct activities that are not restricted by a destination.

We are one of the most experienced team of professionals that offers support to Ukrainian businesses in taking part in various international trade events. We cooperate with experienced business consultants on the target markets, thus maximizing the positive impact of participation in the trade event.

Our organization is interested in collaboration under tenders and grant competitions. Our experts have extensive experience of multiple grant activities implementation under development aid programs.
